**Happy with your specification?** Follow these 3 simple steps below to order.

### Step 1.

Calculate your cost. If the product specification and pricing is satisfactory, simply multiply this m<sup>2</sup> price by the m<sup>2</sup> of material required for your project.

### Step 2.

Once the tender has been approved, email us the final construction drawings to receive a formal **BOQ estimation** which includes all standard trims and componentry.

### Step 3.

Review itemised quote and follow the prompts to **place your order**.
